

training and development opportunities

As part of our Staff Deal we want you to learn, grow and develop whilst working at Wigan Council and will work with you to help you make the most out of opportunities you have. A whole host of opportunities are available on a regular basis to get involved in.

Some of these are more formal training sessions whilst others may be opportunities such as work shadowing, coaching and mentoring.

You will see advertised a wide range of apprenticeship vacancies, don't forget, these are for all ages not just people starting out their careers and are a great way to learn and develop your skills whilst working.
