

## green travel options

As part of our new ways of working, Wigan Council staff are encouraged to jump on board with more active and greener ways of travelling to work such as:

- Car sharing
- Using public transport – such as the bus or train
- Cycling and walking to work

We've joined up with Arriva buses to offer our staff fantastic savings on bus travel across the borough and the North West, through the Arriva Buses Employer Travel Club.

As part of our Staff Deal, we care about health and wellbeing and, as taking the bus to work is one of the greener travel options, it helps to lower carbon emissions, making our air cleaner and healthier for everyone.

We also have pool bikes, including electric bikes, available for staff that need to travel short distances to meetings, site visits or even just a lunch-time cycle.
